PERSONAL SUMMARY

I have graduated International Sakharov Environmental Institute of Belarusian State University as engineer-programmer-ecologist and have certificate of the QA engineer from AIQA company also. I work in the implementation department of EAM/ERP informational systems. Work in customers area and almost all the time I spend on business.

My responsibilities include:

- business analysis;
- system administration;
- db administration;
- functional testing;
- writing of technical documentation;
- technical support;
- consulting;
- user training.

I 'm the only one responsible for direction called "Rights and Permissions" in my department, this is a functionality which delimits access to the documents and system entities depending on user rights. Based on customer requirements I project realization of access limitations in particular entities and integration solutions for the product, work closely with developers and testers. I do have experience working with such big companies as "Transneft".

AREAS OF EXPERTISE

Accompaniment, support, administration and finalization of desktop software product.
